Francesco C. Billari

Francesco Billari
Rector

Riccardo Taranto

Riccardo Taranto
Managing Director

DEAR FRIENDS, THANK YOU. THIS REPORT IS FOR YOU.

For you – our **1,300** Donors of the 2022-2023 academic year – is a message informing you of the enormous impact of your generosity. Your continuous, passionate and selfless support represents an antidote to short-term thinking and an invitation to invest in the future by spreading knowledge.

One year ago, the new rectoral mandate was published – the first for Professor Billari – which reflects and reinforces many of the values already expressed in Bocconi's 2021-2025 Strategic Plan and 2030 Vision. This Donor Report has been built from four key concepts on which these strategic documents are based: **inclusion, community, social sciences** and **sustainability**.

- Together with you, we promote **inclusion** with a view to being a driver of social mobility and accessibility, aware that talent – whether in study or research – can be found anywhere, while opportunities are not so omnipresent. Our system of scholarships and tuition waivers, which have increased by 17% since 2021 and are supported by many Donors, now means that more than one in four students receives some type of assistance.
- Developing the study of **social sciences** is our mission in order to find solutions to the complex problems of the modern world, adding to the other historic Bocconi disciplines linked to computer sciences, Europe and sustainability (since 2021, four new named academic positions and two Research Labs have been established).
- **Sustainability** is another priority for Bocconi, not only in managing the Campus with the decarbonization plan, but also in Research with a view to contributing to sustainable development and responding to the demand for knowledge of new generations (the Master of Science in Transformative Sustainability has been launched in partnership with some Donors).
- Finally, the Bocconi **community** is a dynamic group of people at the University who believe in intergenerational solidarity (13 fundraisers organized by groups of Alumni, in some cases also with the additional support of their companies).

Donors,

Great feats always seem unreachable, but the future comes one day at a time. These days of ours will become history and a legacy for future generations: we will do everything possible, with your support and encouragement, to ensure that those generations see us all as worthy ancestors.

**LET US GIVE VALUE TO TOMORROW, TOGETHER.
THANK YOU**

DIFFERENT PERSPECTIVES FOR BUILDING A COMMON VISION

Facilitating access to university education for students with the most varied backgrounds means creating an **open academic environment which is fertile with different ideas** and points of view. It also means, as a university, becoming an active instrument in support of **social mobility, inclusion** and **gender equality**. With students, researchers, faculty, staff and Alumni originating from over 120 countries in the world and very different backgrounds, diversity is an integral part of Bocconi's ethics and vision, fully shared with all our Donors. ■

BOCCONI INCLUSIVE PROJECTS

■ STRATEGIC GOVERNANCE

- Dean for Diversity, Inclusion and Sustainability (Professor Paola Profeta)
- Bocconi Inclusion Service

■ HONOR CODE

and codes of conduct to guarantee respect of individual dignity

■ "CARRIERA ALIAS"

in protection of those in gender transition and who are gender non-conforming.

■ INCLUSIVE GENDER EQUALITY PLAN

to analyze and address gender disparities.

■ COUNSELLING, SELF-EMPOWERMENT AND WELLBEING ACTIVITIES

to promote psychological wellbeing.

■ PHYSICAL AND DIGITAL ACCESSIBILITY

elimination of architectural barriers throughout campus as well as digital barriers for access to online information and services (websites/procedures, teaching material).

■ FORCED MIGRANTS AND UNICORE PROJECTS

aimed at refugees and migrants.

■ 1GEN@UNI

orientation initiative for those who, for reasons related to household income, are not considering attending university.

■ CULTURAL DIVERSITY

the exam calendar respects various religious holidays, interreligious space on campus, attention to the needs of individuals linked to ethical-religious reasons.

Preghenella

NAMED SCHOLARSHIP FUNDS: CORPORATIONS AND FOUNDATIONS CONTINUOUS SUPPORT

Named Scholarship recipient

A Named Scholarship Fund is an act of faith in the future. It means strongly believing that everyone's tomorrow will be better if access to university education is more equal and shared today. By way of a Named Scholarship Fund, a Donor chooses to offer **support over the minimum timeframe of two years**, sometimes focusing on a particular category of students or a specific study area.

During the 2022-2023 academic year, Bocconi boasted over 40 recipients of the 14 Named Scholarship Funds. These 40+ young people form part of a total of **350 students on campus** who have begun or continued their education at Bocconi thanks to the support of the Donors. There were 23% more first-year students than there were in 2021.

Donor funds are added to those made available by Bocconi for a total of over **€41 million dedicated to students**. This sum enables more than one in four students to receive some type of support, partial or total.

Partners and Donors such as **Amazon Prime Video, Bottega Verde, Ceresio Investors - Foglia Family, Fasanara Capital, Fondazione Permira, OTB Foundation, Istituto Javotte Bocconi Manca di Villahermosa Associazione "Amici Della Bocconi"**, as well as one Partner who opted to remain anonymous, decided to establish or renew a Named Scholarship Funds during 2022-2023. ■

AN OPPORTUNITY FOR CHANGE IN RESPONSE TO INEQUALITIES

Alumnus and Donor

Hafsa Nagawa, Akili Alembe Dikonzo and Lea Christine Itumu Kikorasono are three students who arrived at Bocconi thanks to the **UNICORE - University Corridors for Refugees** project – an initiative created by UNHCR, Caritas, Diaconia Valdese and MAECI in collaboration with Italian universities. The project offers students with refugee status the opportunity to continue their studies in Italy with full financial support.

The UNICORE and **Forced Migrant Students** projects are aimed at supporting people in conditions of particular difficulty linked to their country of origin. There are other programs dedicated to Italian students, including “**Una Scelta Possibile**” which helps to close the social gap of inequalities that exist in Italy. Thanks to the generosity of its Donors, Bocconi continues to demonstrate its commitment through tuition waivers, scholarships and activities aimed at fostering students’ admission into university and improving their wellbeing during their studies.

Donors from the 2022-2023 academic year who have chosen to contribute actively to inclusion and social mobility projects include **Carlo Bronzini Vender, Michele Titi Cappelli, Erdit Hoxha, Germana Martano and Paolo Monarca and Gilberto Pozzi.** ■

ALUMNI AND FRIENDS

During the 2022-2023 academic year, the following Individual Donors chose to support, through tuition waivers and scholarships, programs linked to the topic of Inclusion:

- **CARLO BRONZINI VENDER** (Business Administration, 1987) through the “Una scelta possibile” Undergraduate Program, Scholarships and Tuition Waivers for refugees, and the Inclusion Fund
- **ROBERTO BERTAZZONI** through the Partial Undergraduate Scholarship Program
- **GENNARO CASALE** (MBA 25, 2000) through the Partial Graduate Scholarship Program
- **VITTORIO COLAO** (Business Administration, 1986) through the Partial Undergraduate Scholarship Program, the Master of Arts in Law Partial Scholarship Program, and the Partial Graduate Scholarship Program
- **MICHELE CORTESE** (Economics, 1993) through the Full Graduate Scholarship Program
- **UGO COTRONEO** (MBA 28, 2003) through the Partial Graduate Scholarship Program
- **DOMENICA DI MARCO** (Foreign Languages, 1972) and **MARIA DI MARCO** through the Full Graduate Scholarship Program
- **IVAN FARNETI** (Business Administration, 1992) and **NICCOLÒ MANZONI** (Finance, 2007) through the Full Undergraduate Scholarship Program
- **ERDIT HOXHA** (Finance, 2005) through the Full Undergraduate Scholarship Program and the Partial Graduate Scholarship Program
- **SIMONA MAELLARE** (Economics, 1994) through the Full Graduate Scholarship Program
- **GERMANA MARTANO** (Specialized Master Program “Master in Economics”, 1996) and **PAOLO MONARCA** (Business Administration, 1992) through the Full Undergraduate Scholarship Program
- **RICCARDO MONTI** (MBA 14, 1989) and **VITTORIA MONTI** through the Full Graduate Scholarship Program
- **VERONIQUE MORGEN** (Business Administration, 1993) and **DIEGO DE GIORGI** (Business Administration, 1992) through the Full Undergraduate Scholarship Program
- **MONICA and DIEGO PIACENTINI** (Economics, 1985) through the Full Undergraduate and Graduate Scholarship Program
- **RICCARDO RIBOLDI** (Finance, 2009) through the “Una scelta possibile” Undergraduate Program
- **GILBERTO POZZI** (Business Administration, 1989) through the “Una scelta possibile” Undergraduate Program
- **EMANUELA SCURA** (Business Administration, 1998) and **ALESSANDRO LIZZERI** (Economics, 1985) through the Partial Undergraduate Scholarship Program
- **MICHELE TITI CAPPELLI** (Business Administration, 1999) through the “Una scelta possibile” Undergraduate Program

In addition to these Donors, we also thank Donors who, while choosing to support inclusion at Bocconi, preferred to remain anonymous.

LEAP Associate Research Director

RESEARCH LAYS THE SCIENTIFIC FOUNDATIONS FOR A MORE EQUITABLE WORLD

Studying scientifically valid mechanisms and instruments in favor of diversity, inclusion and equal opportunities: this is one of the greatest challenges of our time, one which Bocconi aims to take on together with Donors, building a more just world for all.

This is the case, for example, with the research activities of **LEAP – Laboratory for Effective Anti-Poverty Policies**, the Bocconi Laboratory established thanks to the generous donation of the **Fondazione Romeo ed Enrica Invernizzi**, which aims to understand and combat poverty through effective evaluation methods. This contribution goes towards achieving the first “No Poverty” objective of the Sustainable Development Goals of the UN 2030 Agenda.

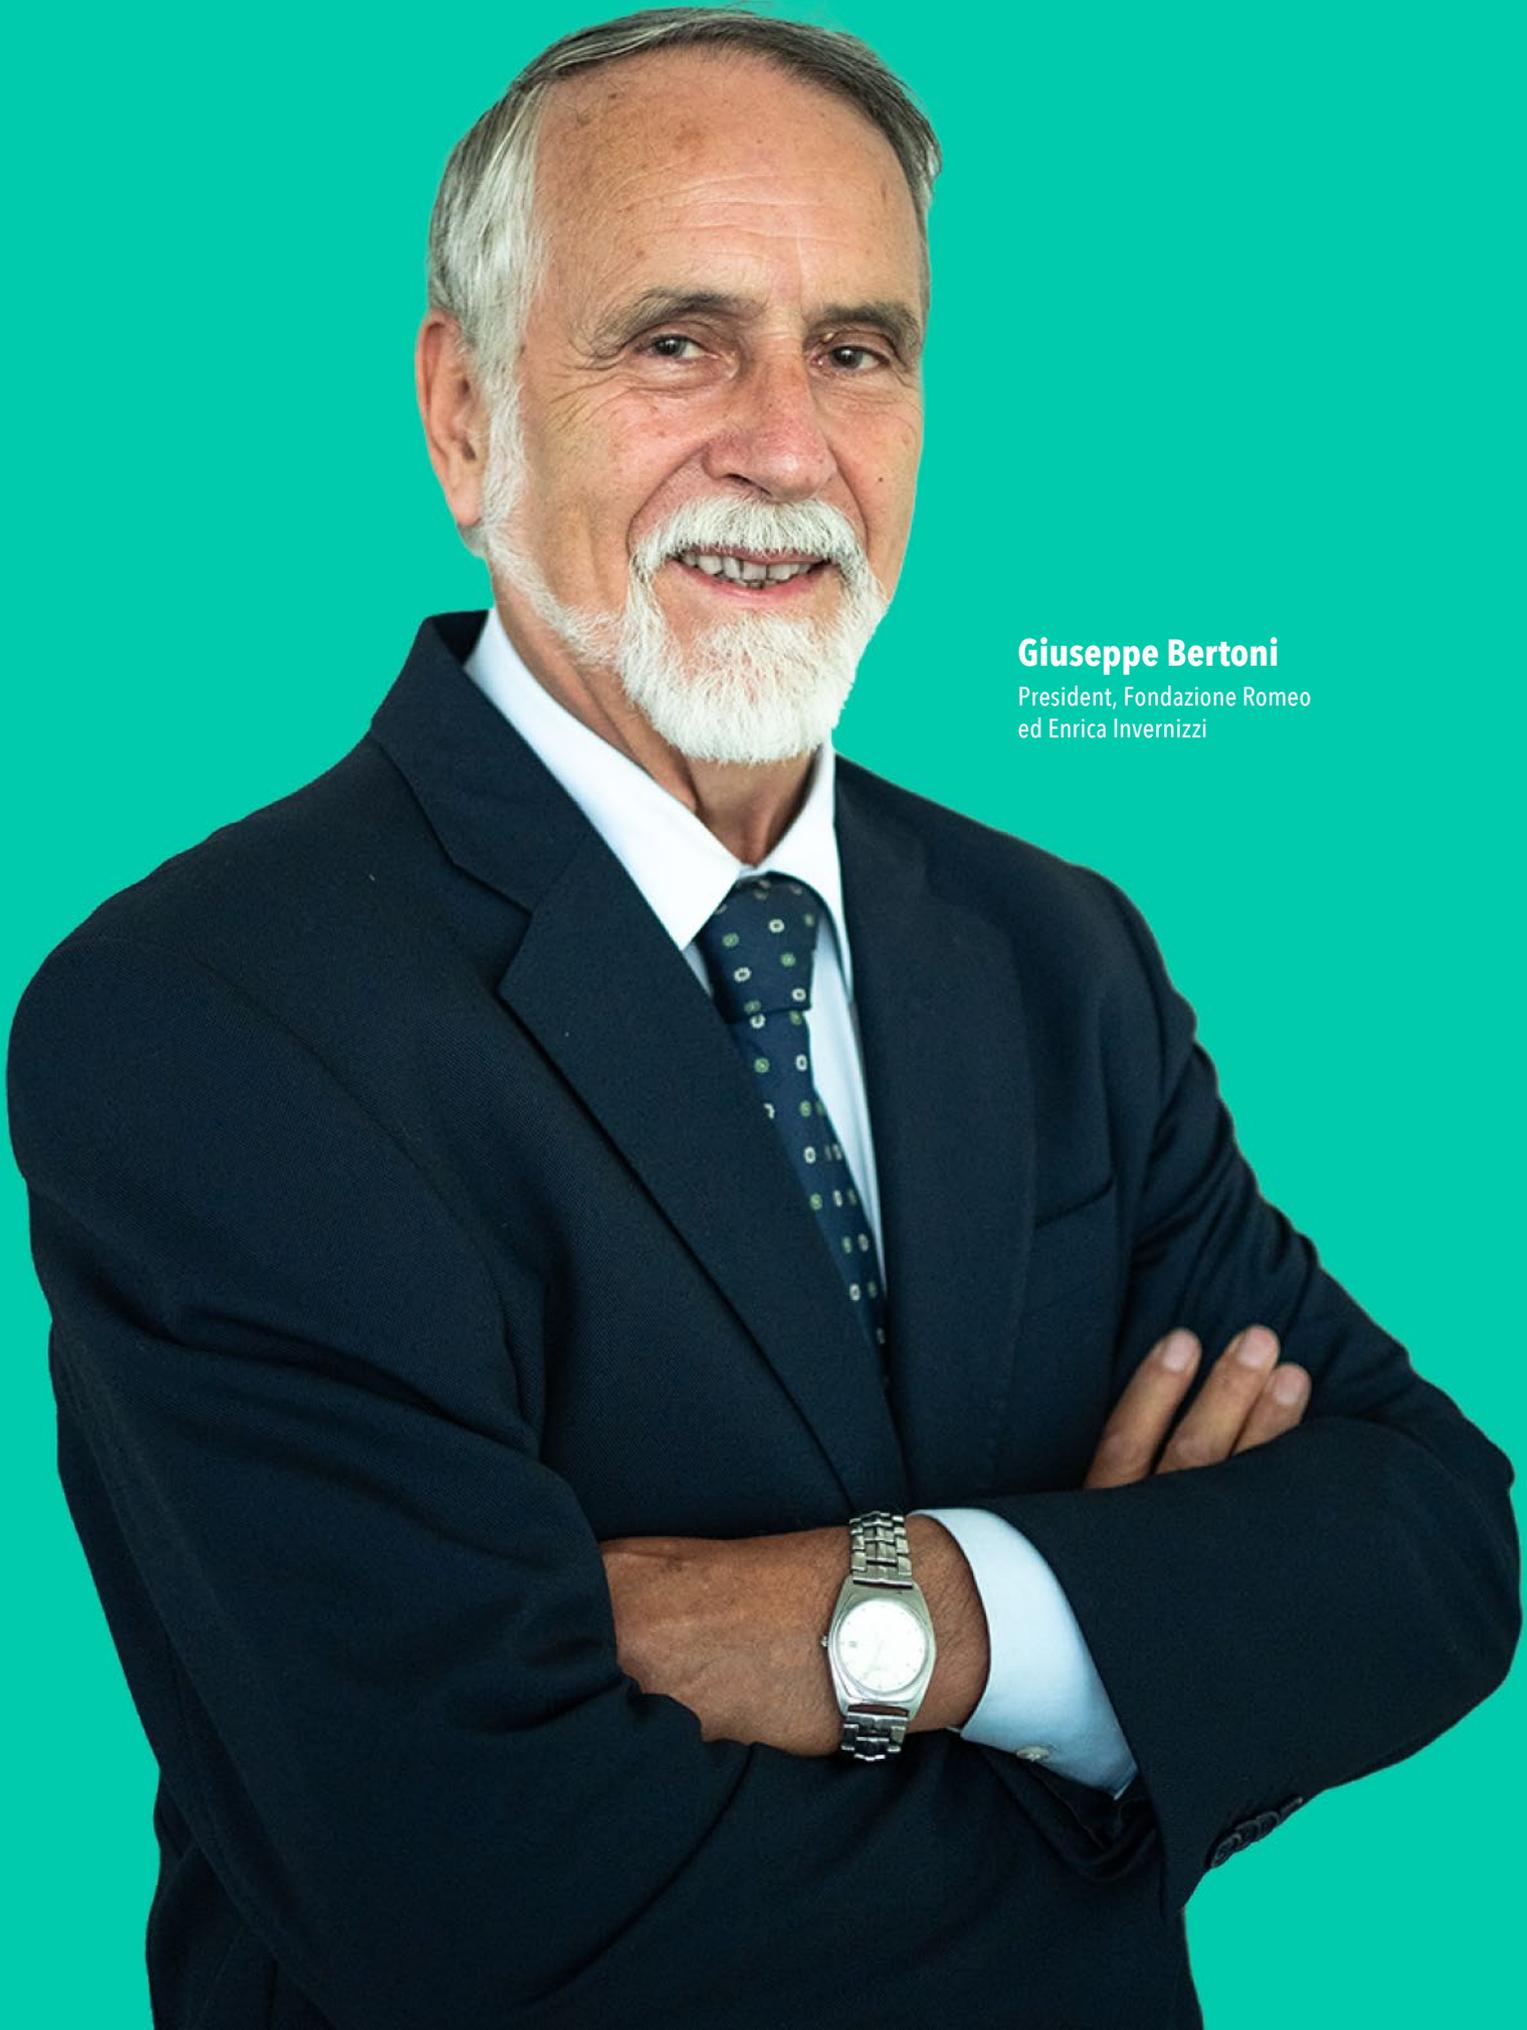

By supporting the activities of the **CERGAS Research Centre – Centre for Research on Health and Social Care Management** of SDA Bocconi, the Partners and Donors contribute to generating a positive impact on society. **Fondazione Allianz Umana Mente** and **Fondazione Ravasi Garzanti** support, for example, projects related to integration and social policies, in the scope of disability and volunteering.

Finally, on the matter of equal opportunities, during the 2022-2023 a.y. **AXA Italia** and **AXA Research Fund** renewed their commitment to supporting the **AXA Research LAB on Gender Equality**. The Lab, established in 2020, is aimed at promoting gender equality in the economic and social spheres through rigorous scientific methodologies and the dissemination of research findings. ■

The aim of the AXA Research Lab on Gender Equality, created with the AXA Research Fund and Bocconi University, is to promote knowledge and raise awareness necessary for society to progress on the challenge of equality, to create a culture of change. Women are fundamental to economic and social development; they are a vital force.

AXA

Giuseppe Bertoni

President, Fondazione Romeo
ed Enrica Invernizzi

THE POWER OF SOCIAL SCIENCES TO ADDRESS EMERGING CHALLENGES

As a university, Bocconi feels responsible for providing increasingly better tools for **navigating all of our contemporary complexities** – not only for students, but for the world at large. The social sciences, on which Bocconi University is historically based, are able to provide these instruments, which act as keys for understanding and stimuli for critical thinking. Social, political and economic phenomena are studied and researched with a **scientific and measurable approach** to make predictions about the development of society and suggest solutions and guidelines. As emphasized in the 2030 Vision, our idea of social sciences will gradually expand to include disciplines such as computer and cognitive sciences, which are now fundamental for understanding and addressing – using an **increasingly multidisciplinary approach** – the great challenges of our time. ■

- **11 RESEARCH CENTRES AND LABS** (+)
ESTABLISHED WITH A DONATION

NEWLY INAUGURATED CHAIRS THANKS TO THE SUPPORT OF THE DONORS

Fondazione Romeo ed Enrica Invernizzi Chair
in Computer Science

The greatest aspiration that our Donors help us to achieve is to **advance the frontiers of knowledge to create a better society**. Attracting the finest professors and researchers from all over the world and further strengthening scientific investigation in the social sciences remains one of Bocconi's primary objectives. In this respect, Donors not only contribute to establishing new Chairs in disciplines of high impact, but also pledge to support them for a minimum duration of five years, knowing that scientific research needs medium to long-term timescales to bear fruit. Supporting a Chair or Professorship offers the Donor the possibility of agreeing on a common topic of interest, enabling the research findings to be used at the service of the community. These are often innovative fields of great impact, which lead to **cutting-edge studies of huge public interest**.

During the 2022-2023 academic year, the permanent Chair established by the **De Agostini Group** was inaugurated, known as the **De Agostini Endowed Chair in Corporate Strategy**, assigned to Professor Sonja Opper. The topics forming the subject of the research – managerial skills, diversification and internationalization – are key elements of the path undertaken by the De Agostini Group under the guidance of Marco Drago, now President Emeritus.

At the same time, the **Fondazione Romeo ed Enrica Invernizzi** – in line with its statute – confirmed its support for frontier disciplines, allowing Bocconi to establish three fixed-term Chairs: **Behavioral Economics and Finance**, assigned to Professor Nicola Gennaioli; **Computer Science**, assigned to Professor Luca Trevisan, who returned from the United States precisely to cover this role; and finally **Innovation Management**, assigned to the previous Rector Gianmario Verona. The **Generali Endowed Chair in European Policies - Shaping Leadership in Europe** was also established during the same academic year, assigned to Professor Catherine De Vries. ■

It is an ambitious approach to support a new Research endeavor that will evolve over the years with activities that are not yet entirely predictable. I hope that this way of supporting Research, focused on the long-term and not on the immediate result, becomes common and that the example of Fondazione Invernizzi is replicated as often as possible.

POWERHOUSES OF KNOWLEDGE AND DISSEMINATION: THE WORK OF THE LABS

Director of the AXA Research Lab on Gender Equality and Dean for Diversity, Inclusion and Sustainability

The Research Laboratories gather together a pool of professors, coordinated by a director, who cover different fields to guarantee a multidisciplinary approach, in which the different areas of expertise are consolidated, thereby encouraging **knowledge integration**. The goal is to respond to the Research interests of the Donor, thanks to the prominent members of the faculty.

The added value of this type of research is in its **involvement of various departments**, which gives life to an intellectually stimulating study group, engaged and open on all fronts – often leading to significant results. The **collaboration with researchers from leading universities** including Harvard and Oxford, as well as the involvement of highly talented, dedicated young people who study or work at Bocconi, give rise to these fully-fledged hotbeds of ideas. Supporting a Research Lab may also consist of drafting scientific documents and organizing **dissemination** events, in order to present the research findings to particular stakeholders or the general public.

The mission of the new **Management Science Lab**, established in 2022 with the **ION Foundation** and directed by Professors Arnaldo Camuffo and Alfonso Gambardella, is to produce high-impact management science research, allowing companies and research institutions to advance the frontier of knowledge. The **Fintech Lab** began operating during the same year, in partnership with the blockchain platform **Algorand**. Under the direction of Professor Claudio Tebaldi, the Lab aims to study the evolution of digital financial services and their regulation in order to promote the most advantageous financial applications for society. ■

CENTERS AND LABS**

A.Y. 2022-2023

THE NEW INSTITUTE FOR POLICYMAKING

Director of the Institute for European Policymaking
@ Bocconi University

Bocconi's European and pro-European spirit is reflected in all its activities and is shared with its community of Alumni and Donors – Italian and international. From the institution of the Fondazione Achille e Giulia Boroli Chair in European Studies and BLEST–Bocconi Lab for European Studies, to the participation in the CIVICA network of European universities – just to name a few of the initiatives – Bocconi aims to not only actively participate in the debate on European issues, but foster sharing and consensus around the values of Europe and the European project as well. The **Institute for European Policymaking @ Bocconi University (IEP@BU)** was founded in this context.

Established by Bocconi University and the Istituto Javotte Bocconi as a sign of gratitude and esteem towards Mario Monti, who is its honorary president, IEP@BU is strongly characterized by **interdisciplinarity**. It combines the analytical rigor of a **research centre** with the ability of a **think tank** to influence policymaking processes, with particular attention to **communication and dissemination** activities towards the public. Under the direction of Daniel Gros along with President Guido Tabellini and a Management Council of the highest academic profile, the Institute aims to implement, discuss and disseminate high quality research on the main policy matters addressed by the European Union and its Member States in a rapidly changing world, contributing to improving policymaking processes. ■

Marie-Claire Daveu

Chief Sustainability and
Institutional Affairs Officer,
Kering

Companies cannot tackle the climate and biodiversity crisis on their own. There is an increasing need of peer-to-peer collaboration.

At Kering we recognize and encourage collaboration in all its forms, and partnerships between companies and universities are key to promote sustainability values in the younger generation.

It can be through teaching, encounters with sustainability professionals, learning expeditions, and we aim to encourage our academic partners to make sustainability trainings compulsory across all programs both at bachelor and masters levels. Students are the decision-makers of tomorrow!

Marie-Claire Daveu

Chief Sustainability and Institutional Affairs Officer, Kering

SUSTAINABILITY AS A SIGN OF RESPONSIBILITY TOWARDS THE FUTURE

Guaranteeing sustainable development over time has always been the mission of the University, now enhanced by the other **dimensions of sustainability: environmental, social and economic**. This is a global challenge towards which we must all contribute. This priority commitment is clearly reiterated **in the 2021-2025 Strategic Plan** as well as the **2030 Vision**, two pillars which guide the actions of Bocconi.

Donors constantly demonstrate that they stand alongside the University in this multifaceted responsibility: supporting deserving students on a continuous basis, increasing the sustainability of the campus and promoting research on crucial issues for both the future and development of the planet. This inspiring support aligns with the increasing demand for further investigation into these issues by new generations. Students want to learn concepts and tools for building a better future, and it is the primary task of Bocconi to provide them through cutting-edge courses and a top-class faculty. ■

PROJECTS/ NUMBERS

■ CLIMATE COMMITMENT

The University and SDA Bocconi have a decarbonization plan based upon energy efficiency and energy saving along with self-production from renewable sources (photovoltaic and geothermal). Since 2017, 100% of the electricity purchased from third parties has been from renewable sources.

■ LEED PLATINUM CERTIFICATION FOR THE NEW URBAN CAMPUS.

■ GOVERNANCE FOR SUSTAINABILITY

The role of Dean for Diversity, Inclusion and Sustainability (Professor Paola Profeta) has been established at the University. SDA Bocconi School of Management boasts an Associate Deanship for Sustainability with responsibility also for Diversity, Equity and Inclusion (Professor Francesco Perrini).

■ 10 years OF THE SUSTAINABILITY COMMITTEE

Since 2013 it has been responsible for defining the guidelines and directions of the University for reducing its environmental impact, promoting a culture of social responsibility and coordinating university projects based upon sustainability objectives.

■ BOCCONI'S 2022 SUSTAINABILITY REPORT

■ SUSTAINABLE MOBILITY INITIATIVES

New parking spaces for bicycles, Home-Work Travel Plan (PSCL) and the opening of the Milan Tibaldi-Bocconi University Railway Station

■ 17,000 m² DEDICATED TO GREEN AREAS

in the new area of the Bocconi Urban Campus, open to the Bocconi community and to all Milan citizens

DONATIONS TO THE ENDOWMENT

SUPPORT THAT REGENERATES

The economic sustainability over time of all of Bocconi's activities is a primary concern for the University. Those Donors who decide to **give to the Endowment**, namely to make **donations to the University's endowment fund**, are particularly aware of this concern. **Contributions made to the endowment are invested** and, through their own annual return, make possible the development of activities linked to, for example, a Chair for years to come. It is a way of connecting the Donor's name to that of Bocconi forever, and a way of making Research self-sustainable and, therefore, potentially possible forever.

ENDOWMENT DONORS A.Y. 2022-2023

Alumni, individuals, companies, foundations and institutions that choose to donate to the endowment, rather than to current priorities, are donors who demonstrate that they place great trust in the University, its mission and its management of resources.

RAISING CHANGEMAKERS: TRAINING IN SUSTAINABILITY

A fundamental challenge and responsibility for Bocconi is to **inspire the future key players of sustainable change, through education and teaching.**

During the 2022-2023 academic year, the **Master of Science in Transformative Sustainability** was launched, a Double Degree developed **in collaboration with Politecnico di Milano**. It is a program that offers an integrated and innovative perspective on sustainability, ranging from technical fields related to sustainability (technologies for the environment, energy, mobility and circularity) to fields in the social sciences (management, economics and quantitative and legal disciplines) – required to manage a sustainable and just transition.

As part of this Master of Science, collaborations have been launched with two major Partners: **Fondazione Pesenti** and **Kering**, which have committed over several years to cover total and partial tuition waivers for students enrolled in the program, demonstrating particular attention both to sustainability and the importance of accessible education.

The MSc was established in the wake of historical attention to these disciplines at Bocconi. Since 2015 the **MASEM - Master in Sustainability and Energy Management**, equally supported by numerous Partners and Donors, has been recognized as one of the world's best Master degree programs in this area. ■

Marco
Percoco

STUDYING SUSTAINABLE SOLUTIONS FOR THE PLANET: FROM URBAN SYSTEMS TO AGRICULTURE

Director of GREEN - Centre for research in Geography, Resources, Environment, Energy and Networks

Pooling forces to **seek solutions and tools for sustainable change** is the challenge taken up by Bocconi and shared with all those Donors who, over the years, have increasingly generously supported research on topics of sustainable development and just transition.

The **GREEN - Centre for Research on Geography, Resources, Environment, Energy & Networks** has been active since 2018, with its activities and research projects being supported by strategic Donors such as **Fondazione Romeo ed Enrica Invernizzi**. In 2022 the Centre continued its studies in very topical areas such as the green economy, renewable energies and interconnections between sustainable development and the climate crisis.

As part of the Centre's activities, in 2020, the **SUR Lab – Sustainable Urban Regeneration Lab** was also established thanks to the generosity and contribution of four major Partners and Donors - **Hines, Intesa Sanpaolo, MilanoSesto** and **Prelios**. The Lab aims to develop and disseminate knowledge, methods and best practices on sustainable urban regeneration processes and how they generate value for the private sector and society. The Lab's important collaborations include its work with the United Nations Human Settlements Programme (UN-Habitat).

Furthermore, the **Agri Lab Romeo ed Enrica Invernizzi Agribusiness Research Initiative** has been historically active in research on the border between agribusiness, technology and sustainability. In 2022, in particular, the research team investigated topics of food security related to the climate crisis and the contribution of the agro-industrial sector to achieving climate neutrality goals, through initiatives for atmospheric carbon storage in the soil (carbon farming). ■

A CAMPUS THAT EVOLVES SUSTAINABLY

Alumnus and Donor

The Bocconi Campus is home to a vivacious and constantly growing community, open to the city and to cultural fusion. The challenge we pursue, with the support of our Donors, is to **regularly expand and upgrade the spaces of the University**, rendering them increasingly accessible and sustainable. In fact, the University is not just a place of teaching, but a **space to live, share and exchange** – enriched by spaces for leisure, where the Bocconi community grows side by side with the countless student, sports and social associations, along with rich cultural initiatives.

On one hand, Bocconi strives to expand the spaces starting with the investment in the new Campus and its facilities, and, on the other, its challenge is to take forward the ambitious decarbonization plan. This plan foresees achieving carbon neutrality by 2025, only then to focus on the Net Zero goal, including all the other main indirect emissions. In addition to this, the University's certification process has commenced to calculate its carbon footprint according to the ISO 14064-1 standard, which will conclude by 2023.

The Bocconi Campus, consisting of both the historic and newly constructed buildings, has benefited over the years from various donations from individuals, companies and foundations, rendering sustainable development and evolution possible. For example, the 2022-2023 academic year saw the opening of Room C.E2.06 at the new SDA Bocconi School of Management, dedicated to the 2002 Alumnus of the Year Marco Drago – thanks to the philanthropic gesture of the De Agostini Group, of which Drago is now President Emeritus. In addition, a new Alumni Space open to the Community will soon be inaugurated on the new Campus, and inside will be remembered the names of Alumni and Donors who have been willing to give their support so that our University can be increasingly open and welcoming.

There are currently 49 named spaces on Campus. ■

Silvia Cocciolillo

Donor, Alumna (Economics and Social Sciences, 2016) and Bocconi Alumni Dublin Chapter Leader

ACTIVE NETWORKING TO EXPAND INFLUENCE

Bocconi seeks to use its power of aggregation to **activate and connect** all members of its broad community. We have a duty to trigger sparks of **collaboration** between all Alumni, Donors, partners, students and all other stakeholders who interact with the university. We are united by the same values and mission: to **generate a positive impact on the world**, spreading new ideas along with the principles of inclusion, equity and sustainability. ■

WATCH THE VIDEO

In Silvia's words

OUR COMMUNITY NUMBERS

- **OVER 15,000 STUDENTS** FROM OVER 90 COUNTRIES AROUND THE WORLD IN 2022-2023
- **OVER 135,000 ALUMNI** THROUGHOUT THE WORLD
- **75 GEOGRAPHICAL ALUMNI CHAPTERS** IN **34 COUNTRIES**
- **12 ACTIVE TOPIC GROUPS**
- **1,300 DONORS** DURING 2022-2023
- **286 PARTNER UNIVERSITIES** IN **55 COUNTRIES**

GENEROSITY DOUBLES WITH THE MATCHING GIFT TOOL

Named Scholarship recipient

Every year our Alumni Community demonstrates its belief in solidarity with the younger generations through philanthropic gestures. **Fundraising** is a powerful tool, a concrete way of building and strengthening links in a community whose members share values and goals, and believe in the transformative power of higher education.

The first 18 graduates of Bocconi University, as early as in 1906, came together to support the next generation of students in their university and professional career. Now, as was the case then, the Alumni Community is constantly engaged in individual and collective acts of solidarity. Furthermore, as professionals, the Alumni involve their companies in this virtuous circle, inviting them to donate through the matching gift mechanism, through which the value of employee donations is multiplied.

One testimonial of this good practice is that of Silvia Cocciolillo, Chapter Leader of the Bocconi Alumni Dublin group who enthusiastically promoted a fundraising campaign within her Chapter, also involving her employer – Google – which generously joined the project with a donation.

Thanks to programs such as that of Google or Goldman Sachs Gives, in recent years increasing numbers of Donors have **amplified the impact of their philanthropic gesture**, contributing to changing the lives of many students. ■

MATCHING GIFT DELLE AZIENDE A.Y. 2022 2023

Artioli
Potsios**

Donor

Thank you for everything you have taught us, Franz: economics to the students, and to us friends, the ability to laugh at everything – primarily ourselves.

Carlo Taranto

supporter of the fundraising campaign in memory of his friend and former fellow student, Professor Francesco Daveri

MEMORIAL FUNDRAISING CAMPAIGN: AN ENDURING LEGACY

Professor **Francesco Daveri**, Director of the MBA at SDA Bocconi School of Management, lived by teaching the “sense of what is possible”. His favorite saying to students, colleagues, friends and relatives was “Don’t worry, we’ll find the solution”. It is no coincidence that he was known as “the smiling economist” even among the editorial staff of the newspaper *Corriere della Sera*, with which he worked. His premature death in 2021 left an enormous void in all the lives that he had touched. His legacy will remain forever linked to his Alma Mater thanks to the fundraising campaign in his memory, organized by relatives, friends and colleagues – a campaign which funded a tuition waiver for his MBA program (in the previous year, SDA Bocconi had established another scholarship in his memory).

On the other hand, finance manager and philanthropist **Andrea Potsios** did not study at Bocconi, but after his premature death in 2021, his wife Veronica Artioli Potsios wanted to honor his memory through the University. Thanks to a memorial fundraising campaign that was organized with a charity auction, a study hall in the Library – right in front of the shelves containing the finance books – was named after Andrea Potsios and a tuition waiver was also established in favor of a student passionate about the same subject.

A **memorial fundraising campaign** helps remember those who stood out in life and became bearers of the values of the Bocconi community throughout the world. It is an opportunity to sow a seed for the future, transforming a void into an opportunity for new generations. ■

MEMORIAL FUNDRAISING CAMPAIGN A.Y. 2022-2023

10 Memorial fundraising campaigns were active during the 2022-2023 academic year to support the next generation in memory of Alumni and people close to the University:

- The fundraising campaign in memory of **ALBERTO ALESINA** (Economic and Social Sciences, 1981)
- The fundraising campaign in memory of **GIANLUCA CASILE** (Business Administration, 2001)
- The fundraising campaign in memory of **FRANCESCO DAVERI** (Economic and Social Sciences, 1986)
- The fundraising campaign in memory of **MATTEO RUBINO** (Finance, 2012)
- The fundraising campaign in memory of **LUCA DELLA SANTA** (MBA 26, 2001)
- The fundraising campaign in memory of **ANDREA POTSIOS**
- The fundraising campaign in memory of **MAYA YAZBECK**
- The fundraising campaign in memory of **LUCA FELLI** (Economics, 1991)
- The fundraising campaign in memory of **LUCA ATTANASIO** (Business Administration, 2001)
- The fundraising campaign in memory of **MARIO BUFFO** (MBA 35, 2010)

A COMMUNITY THAT GENERATES SHARED VALUE

Named Scholarship recipient

Every drop counts. The Alumni who generously contributed to Bocconi fundraisers throughout the year know this well. The Bocconi Alumni Community organizes a packed calendar of professional networking, training and development activities and, starting from 2023, as part of all **free initiatives**, participants have had the opportunity to contribute with a **donation to support tuition waivers and scholarships** in favor of future Bocconi students. This is a way of transforming the value received from their Alma Mater into concrete help for future generations.

At the same time, the Topic Groups (thematic or class groups) and Chapters (geographical groups) of Bocconi Alumni are always very active in organizing [networking and fundraising events](#). They represent the true focal points which, across the world, create networks and spread the Bocconi legacy. ■

Being supported by Donors - like you - who place a lot of trust in future generations is incredibly motivating and makes me want to work even harder in pursuing my dreams. It is beautiful to see that there are people who deeply believe in the power and strength of the younger generation and actively engage themselves to support them. Thanks to your generosity, I know I am one step closer to being the person that I aim to be.

Fatima Haidari

Named Scholarship recipient

AN OPPORTUNITY TO SAY THANK YOU

Bocconi University would like to thank all Donors and Partners, acknowledging their support, telling them about common projects and involving them more actively in University life. ■

Every year, there is a special opportunity to thank all Donors at the dedicated **Donor Event**.

Bocconi University is the venue for this special meeting of donors and beneficiaries.

It is a very intense event that we share with all those Alumni, individuals, companies and foundations who, with a philanthropic gesture, have decided to **offer an opportunity** to students who would otherwise not have been able to access university studies.

Such donors have chosen to **breathe life into the development of the sciences** by supporting research, or contributing to improving the **university experience** and development of our Campus.

This is the occasion to thank all of our Donors, **demonstrating the impact of their generosity** and celebrating the goals we have achieved together with the entire Bocconi Community.

"Thank you because..."

OUR DONORS

ALUMNI AND INDIVIDUALS

Bocconi University is grateful to all individuals and Alumni who have chosen to support its initiatives. Donors are included in **Giving Societies**, categorized based upon the value of the donation.

The major donors belong to the **ALLORO CIRCLE** (sacred plant for the Greeks and Romans, and symbol of knowledge and glory), which is split into:

- **ALLORO DIAMOND** for those donating **over €1,000,000**
- **ALLORO GOLD** for those donating **between €100,000 and €999,999**
- **ALLORO SILVER** for those donating **between €50,000 and €99,999**
- **ALLORO BRONZE** for those donating **between €10,000 and €49,999**

All **Alumni and individuals who donate up to €9,999** are grouped, on the other hand, into the following categories:

- **LEONI CIRCLE** (for donations between **€1,000 and €9,999**)
The lions at the campus entrance on Via Sarfatti 25, designed by Arturo Martini, are the very symbol of the University. Tradition has it that it is only possible to pass through them after having graduated. The lion is the symbol of strength, prudence and courage.
- **PELLICANI CIRCLE** (for donations **up to €900**)
The pelican has been the University's mascot since the times of the Associazione Laureati Università Bocconi (ALUB), which chose it as its symbol at the beginning of the last century. The blue and white, on the other hand, represent the colors of the University. Since ancient times, the pelican has been the emblem of altruism.
- **ENDOWMENT DONORS**
Alumni and individuals that choose to donate to the endowment, rather than to current priorities, are donors who demonstrate that they place great trust in the University, its mission and its management of resources. The endowment is, in fact, the University's capital fund, which the University invests for the long term and which generates an annual return, guaranteeing the independence and sustainability of Bocconi activities over time.
- **ETTORE BOCCONI SOCIETY**
This society comprises all donors who have made a bequest to the University. Ettore Bocconi, son of Ferdinando and brother of Luigi, led the University until his death and bequeathed the entire Bocconi family estate to the University his father had founded.
- **1902 - LOYALTY SOCIETY**
This society recognizes all donors who have supported the University for at least two consecutive years. It commemorates the year in which Ferdinando Bocconi, by donating part of his own estate, founded Bocconi University in memory of his son Luigi.

OUR DONORS 2022-2023**

5X1000

ALL IT TAKES IS A SIGNATURE TO WRITE THE FUTURE

A particular thanks goes to all members of the Bocconi Community who have, in recent years, chosen to allocate their 5x1000 to the University's students.

From 2006 (when the 5x1000 was established) to 2022, Bocconi University – as a non-profit organization – has collected over €1.5 million, allocated to supporting over 80 brilliant young students and researchers.

OUR DONORS CORPORATIONS, FOUNDATIONS AND INSTITUTIONS

Bocconi recognizes the importance of involving the economic and institutional world in its projects. To enhance the fundamental support of its Partners – corporations, foundations and institutions – Bocconi groups them together into **giving societies**, in line with their commitment and the type of cause supported.

More specifically, they are grouped into:

■ 1902 STRATEGIC PARTNERS

For entities that share the University's vision and strategic goals, becoming an active part of the future of our society and country as a whole.

■ BENEFACTORS

For their commitment to supporting many broad-ranging projects over a prolonged period of time.

■ MAJOR SUPPORTERS

For supporting a specific initiative: educational programs and Research activities, scholarships, and projects implemented on Campus.

■ SUPPORTERS

For making a difference in the lives of one or more students.

■ FELLOWS

For company donors who start their philanthropic journey with small steps – the first step in growing together.

■ ENDOWMENT DONORS

The corporations, foundations and institutions that choose to donate to the endowment, rather than to current initiatives, are donors who demonstrate that they place great trust in the University, its mission and its management of resources. The endowment is the University's capital fund, which the University invests for the long term and which generates an annual return, guaranteeing the independence and sustainability of Bocconi activities over time.

For Alumni and individuals, the lists recognize donations and related projects active during the period 1 October 2022 - 16 October 2023, as well as donations to the University's endowment fund.

The symbol * identifies donors who, having confirmed their commitment to the University for at least two consecutive years, belong to the **1902 - Loyalty Society** in 2022 and/or 2023.

The symbol F identifies individuals who have supported Bocconi with a donation to Friends of Bocconi University.

WE APOLOGIZE FOR ANY INACCURACIES OR OMISSIONS.
